

## Make Social Distancing a No-Brainer with the **Personal Space Guardian**

Everyone is concerned about COVID-19 exposure, social distancing, and safety. So how can businesses, cultural venues, festivals or any place where people gather ensure that health and safety receive top priority?

### PROVIDE PEOPLE WITH A PERSONAL SPACE GUARDIAN FROM ENGAGE BY CELL.

Visibly worn around the neck on a lanyard, this cutting-edge, social distancing alert system blinks and vibrates when people get too close. Originally used in an industrial setting for more

than ten years, this alert system has now been customized to work person-to-person. Wearers all see other people wearing the same device, greatly increasing comfort and improving distancing.

#### USE CASES:

- **Offices:** protect your employees and reduce the anxiety of returning to the office. Also perfect for contact tracing as every interaction between wearers is captured in our software.
- **Museums and cultural venues:** reassure visitors they will be safe on your property
- **Theaters, concerts, festivals and meetings:** ensure attendees maintain the proper social distance at large gatherings

#### SPECIAL FEATURES:

- Devices can be programmed to alert within a custom distance
- Devices can be programmed to not buzz near family members
- Our software allows you to count people in certain areas

Engage by Cell has provided mobile technology for more than 14 years to thousands of organizations. **We are taking orders now for June.**
