Mobile Tracker Ensures COVID Vaccine Compliance

As the COVID-19 Delta variant spreads, many employers are requiring workers to show proof of vaccination status or submit to regular testing before physically returning to work.

However, tracking vaccinations can be a complicated and perplexing matter.

Engage by Cell's COVID Vaccine Tracker makes tracking employee vaccinations EASY.

Reminder: please upload a photo of your vaccination card today.

Please fill out the form below to verify you have been vaccinated. If you have received any supporting documents, please upload them below as well.

COVID Vaccine Questionnaire

What date was the first dose administered?

Which vaccine did you receive?

What date is your booster vaccine due? *

Are you remote?
☐ Yes
☐ No

Which office location do you report to? *

Which department are you in? *

Upload any supporting documentation below
Please upload supporting documents

If you have any questions or concerns, please contact Kimberly Quinn, Human Resources Director at 404.804.0475

Our dual platform consists of a mobile web application combined with text messaging which allows organizations to:

- Notify employees on coronavirus policies
- Send vaccination information and instructions
- Create a mobile repository of all COVID and vaccination content
- Request proof of vaccination
- Ask employees to upload proof of vaccination to the app
- Communicate with employees via text message

Fully customizable, the COVID Vaccine Tracker requires no downloads and no IT department. Plus, with a 98% open rate, text messaging is the most effective way to communicate with your staff.

Engage by Cell has secured Compliancy Group to achieve, illustrate, and maintain its HIPAA compliance.

What can the Vaccine Tracker do?

SYMPTOM CHECKING:

send employees a daily health screening questionnaire via text

CONTACT TRACING:

send text message notifications when positive COVID tests occur

REASONABLE ACCOMMODATION:

allows employees to submit a form request through the mobile app for a religious, medical or other COVID-related accommodation

TEMPERATURE SCANNING:

ask employees to self report their temperature through the mobile app

VACCINE CARD VERIFICATION:

HR team can verify uploaded vaccination card images or ask Engage by Cell to verify for you

VACCINE TRACKING:

employees self-report their vaccination status; backend reports provide data on vaccinated, unvaccinated, positive COVID tests, and more

“The Vaccine Tracker was very useful. We got a good response from our employees. When we presented the information to leadership, they made a very important decision based on that information alone. And, as a result, we reinstated our current vaccine mandate. The vaccine tracker reports provided a good visual for decision making within our tribal structure.”
