

Educate, Entertain and Engage with Visitors on Mobile

Help visitors explore all the interesting stories and information your venue has to offer on the device they're sure to carry: their phone. Engage by Cell's mobile technology helps you curate interactive experiences from audio and smartphone tours to GPS wayfinding and digital membership cards.

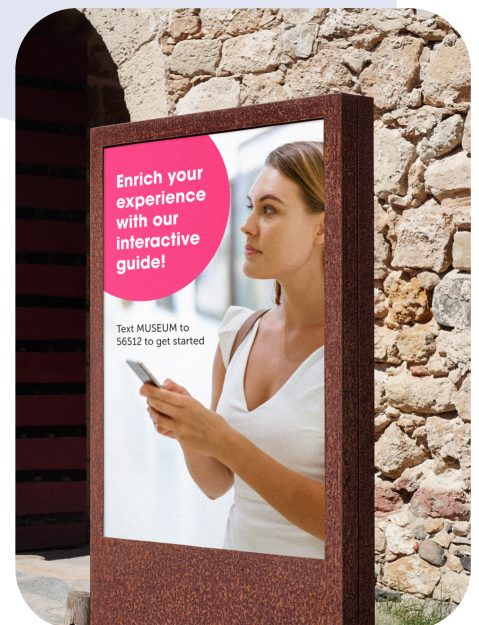

SMARTPHONE TOUR

With our mobile web authoring platform, create a fun and engaging experience in minutes. Accessible via text message or QR code, visitors will love this no-downloads-required mobile app.

AUDIO GUIDE

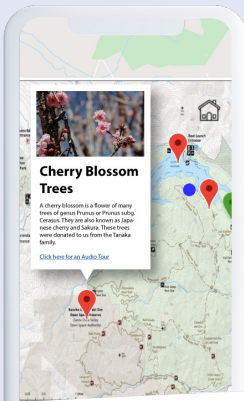

Allow visitors the convenience of using their phones to hear audio clips about your exhibits. Record first-person accounts, ask artists to talk about their work, or create tours in multiple languages.

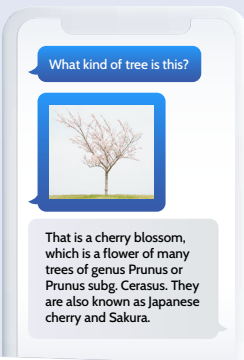

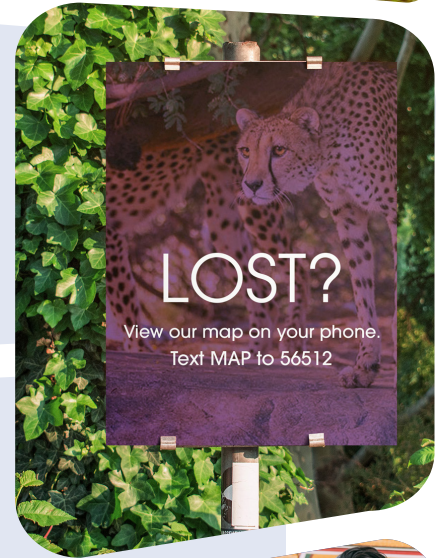

Educate, Entertain and Engage with Visitors on Mobile

GPS MAPPER

With Engage by Cell's GPS Mapper, we place your venue's map on top of a Google map using GPS data, so your visitors always know where they are and what exhibits are around them.

TEXT CHAT

Make a connection by encouraging visitors to ask questions during their visit. Through Text Chat, visitors send a text message and your staff texts back an answer through our dashboard.

DIGITAL MEMBERSHIP CARDS

Engage by Cell's mobile digital cards keep your venue top-of-mind through your member's digital wallet. Issued via text message or email, a digital membership cards are fully customizable to your branding and style. It's the membership card that never gets lost.

Visitors will explore and discover more when you offer digital tools.
